

# Assemble the Team

## Wounds Prevention and Management Cycle

### Tip Sheet

## Assemble the Team

Select and engage the appropriate team members, based on the client-specific needs and goals.

An integrated team includes:

- The client, including family and informal caregivers at the core of the team.
- Health care professionals, such as:
  - Physicians/surgeons
  - NSWOCs/wound clinicians
  - Nurses
  - Occupational therapists and physiotherapists
  - Registered dietitians
  - Orthotists
  - Podiatrists
  - Social workers
  - Pharmacists
  - Diabetic educators
- Other service providers, such as:
  - Shoe fitters
  - Health care workers and supports
  - Compression garment fitters
  - Volunteer services, meal services and transportation services
