Introduction

The following guide is meant to provide introductory information to family practitioners beginning to work in long-term care. It is specific to the fee for service billing codes that apply to long-term care. It is updated annually and on an as needed basis on fee for service code changes.

Annually the provincial government updates the fee schedule both in terms of compensation and guidelines. The Family Practice Services Committee (FPSC) also has incentive fees that are updated regularly.

The descriptions should not be fully interpreted without reference to the general preamble provided at the start of the Medical Services Plan (MSP) payment guide and Family Practice Services Committee (FPSC) guide.

Forms and Non-insured Services

Forms – Billable to MSP

Billing Code	Description	Amount	Details
00199	Miscellaneous	FP assigns value	This code allows FP to assign a value, but explanation must also accompany. There is a new form for LTC incapability assessment that it is suggested to bill using this code in the amount of 225.00 along with an explanation. Link to form: https://www2.gov.bc.ca/assets/gov/health/forms/3910fil.pdf

Non-insured Services – privately invoiced

Several services provided in LTC are not covered by MSP but require FP time and involvement for completion. In these situations, it is up to you as a FP to decide if you would like to invoice the resident or family privately. The fees listed below are the most common in LTC and pricing is updated annually. Each item has an associated 'code', but this is not required for invoicing. As FP the prices are a guideline only and you can bill what you feel appropriate based on the service provided.

The complete list of uninsured services and suggested fees can be found on the Doctors of BC website:

https://www.doctorsofbc.ca/sites/default/files/uninsured_services1apr2020_327874.pdf

Code associated with form	Description	Amount	Details
A94533	Completion of Form for Public Trustee – opinion of incapability	417.00	Resident or family will in most cases provide form – information can be found here: https://www.trustee.bc.ca/reports-and-publications/Pages/certificate-of-incapability-guidelines.aspx Contact: Public Guardian and Trustee of British Columbia 604.660.4444
A00060	Written Certificate	50.90	Includes Medical Certificate of Death, HandiDart form, SPARC parking form
A00069	Insurance company form to include review of records short	173.00	Completion of Disability Tax Credit forms falls into this category

Billing Examples

Example 1: Scheduled Day –6 resident visits + Care Conference

You are scheduled to see 6 residents for whom you are MRP for routine care and then have a care conference for a 7th resident with RN/Pharmacist (document the time of this to submit with billing). Later in the day you discuss a resident with the pharmacist (document time to submit with billing).

Billing for the day:

00114 + 13334 - for first resident of the day (36.76+50.14 =86.90)

00114 - for second resident of the day (36.76)

00114 - for third resident of the day (36.76)

00114 - for fourth resident of the day (36.76)

00114 - for fifth resident of the day (36.76)

00114 - for sixth resident of the day (36.76)

14077 - for care conference which lasted 25 min, document times 0930-0955 (This conference uses 2 out of allowable 18 fifteen-minute sessions per resident per year) (87.00)

14077 - for call pertaining to resident lasting 10 minutes (43.50)

Time Commitment: ~2HR total

Total Billing Amount: 401.20(MSP)/2HR = 200.06/HR

If you take a call pertaining to a resident and it is very brief, the code 13005 is most appropriate

Example 2: 10 resident visits + Care Conference

You are scheduled to see 10 of your own residents for routine care and then have a care conference for a resident with the Pharmacist. You are also asked to see a resident of another MRP with a suspected UTI. Later in the day you are asked to take on a new resident being transferred from hospital with a hip fracture.

Billing for the day:

00114 + 13334 - for first resident of the day (36.76+50.14 = 86.90)

00114 x 9 – for next 9 residents (36.76*9 = 330.84)

00114 - for 11th resident of the day (36.76) – although not MRP, this is the most appropriate code unless performing a consult out of office or needing a complete exam. Be sure to include a note as well.

14077 - for care conference which lasted 35 min, document times 0930-1005 This conference uses 2 out of allowable 18 per resident per year (87.00)

14077 – for call related to taking on new resident, discussion about health and hip fracture 1600-1615

Time Commitment: ~3HR total

Total Billing Amount: 584.73(MSP= 194.91/HR)

What is missing from these examples?

Out of office complete examinations – perhaps done annually on residents or as needed for a new concern.

Counselling fees – may be done based on resident need

Example 3: Weekend call

You are called at 10:00am to see a resident at the care home. While you are there at 12:00pm you are asked to see another resident in need of care. You have seen this resident already once this week but are checking up.

Billing for the day:

00115- include time of call 1000, seen 1200-1245 for both the special call (117.46)

00114 - for second resident visit, make note of reason seen again (pneumonia f/u) as visit was within two-week time frame (36.76)

Time Commitment: ~ 1HR

Total Billing Amount: 154.22/HR

Example 4: After hours' call

The nursing home calls at 9:00pm asking you to see a resident with CHF. You are there and see this resident and speak to allied health about a plan of care. You receive a call from a local FP to provide advice on one of his residents at the home whom you also examine. You combine these visits.

Billing for the special call:

00115- include time call came in 21:00, time of visit, 22:00-22:45 (117.46)

14077 – document time for speaking to ACP, 23:00-23:10 (if call is <8 min could use 14067 code)

18200 – out of office visit ages 80+, document time and FP who asked you to consult in notes, 57.45 (if complete physical needed can document 18201-physical for 80+ year old individual)

Time Commitment: ~ 1.5HR (considering time from call/travel)

Total Billing Amount: $218.41/1.5 = 145.61/\text{hr}$.

Example 5: Terminal care

You attend a care conference at a local nursing home where you review three residents who are under your care. At the care conference is the ward nurse, social worker, pharmacist, and dietician. Resident A and B each take 20 minutes to review*, but resident C has family is present as he is recently deemed palliative for end stage CHF and this care conference takes 50 minutes. You see resident C first that day and then 4 times in the next 10 days (5 terminal care visits in total) until he passes away. You see resident A and B following the care conference for planned LTC visits starting with pt. A. You are an attached physician (have billed 14070 or 14072 for the year to participate)

Billing for the day:

Resident A - 14077 (include time) + 00114 (include time) + 13334 (43.50+36.76+50.14)

Resident B - 14077 (include time) + 00114 (include time) (43.50+36.76)

Resident C - 14077 (include time) + 00127(include time) (Dx 428) (87.00+54.53)

Time Commitment: ~2HR

Total Billing Amount: $336.28/2 = 168.14/\text{HR}$

Subsequent day Resident C - resident seen daily for 4 additional days 00127 each day.

*for 14077 20 min duration equates to 1 unit, a 25 min duration would equate to 2 units

Example 6: MAiD Assessment

A resident of yours with terminal cancer has made the decision to proceed with medical assistance in dying. As MRP you are required to do a review of records and paperwork completion as the MAiD Assessor Prescriber. The full assessment and completion of paperwork takes 1.25HR (5 units). The resident encounter takes 1.0HR (4 units) to fully discuss the procedure. On the date chosen by the resident you have medications delivered to the care home, establish the I.V., administer medication, and then pronounce the time of death for the resident (~3HR). After this you provide the service of completing the death certificate for the family.

Billing:

13501 MAiD Assessment Fee (9 units allowed):

- you would bill for the initial assessment and review with times documented – 43.50×5 units.
- you would also bill for the resident encounter with times documented which is – $\$43.50 \times 4$ units.

13504 MAiD Event Preparation and Procedure time not required– 285.58.

18200 – Out of office visit – 57.45 (applicable if appropriate visit completed on date of MAiD event)

A00060 – private invoice – completion of death certificate – it is your discretion if you wish to bill the family for the completion of the death certificate. - 50.90

Time Commitment: ~ 5.25HR

Billing Amount: $391.50 + 285.58 + 57.45 = 734.53/5 = 146.90/\text{HR}$

Example 7: Regular visits and Counselling

You arrive at the care home for a regular day of resident visits. You have 8 resident visits and in addition have a resident who has been newly diagnosed with diabetes. You speak with the pharmacist about the medication plan and then sit down with the resident to discuss the changes they will see based on this diagnosis which takes about 25 minutes.

Billing for the day:

00114 + P13334 - for first resident of the day ($36.76 + 50.14 = 86.90$)

00114 x 7 for the remaining resident visits ($36.76 \times 7 = 257.32$)

14077 – discussion with pharmacist re: medication, include time (43.50)

18220 – counselling visit for diabetes discussion, include the time (103.39)

Total Time Commitment: ~ 3HR

Total Billing: $491.11/3 = 163.70/\text{HR}$

Estimated Annual Remuneration

Below is an estimation of annual, monthly, and hourly remuneration based on being MRP to 30 residents in long-term care. In this scenario the physician may choose to see 15 residents each week or 30 residents every other week. This estimation has been compared with actual physician billing and the annual amount is accurate. The annual estimation does not include the CLFP payment or other incentive fees for LTC.

Hourly estimations are based on spending either 2 hours weekly at the care home or 3 hours weekly. This may be different if you choose to do 1 day weekly and see all residents. * If spending 2 hours on site weekly considering only routine care the hourly rate would be \$300.77. ** If spending 2 hours on site weekly and including all the additional possible billing codes (conference calls, physicals etc.) the hourly rate is \$714.46. The estimations of 10 annual faxes (13005) and telephone management calls (14076) are based on averages of actual care provided versus meeting the annual allowable maximums.

Estimation of Hourly/Monthly/Yearly Remuneration in Residential Care Facility
Based on being MRP for 30 patients - 30 (15 one week, 15 the next)

Estimated time on site weekly - 1h travel, 2-3h on site
8h/month approx 12h/month if spending more time

When you receive remittance

- You will get the total amount you will be paid; it will differ typically from the amount billed.
- Some billings are 'held' and will be paid at a later date.
- Some billings will be rejected:

Link to the Teleplan explanatory codes on rejections:

<http://www2.gov.bc.ca/gov/content/health/practitioner-professional-resources/msp/claim-submission-payment/explanatory-codes>

To limit rejections

- Check resident demographic information to ensure name, DOB and PHN are all correct
- Ensure that notes are included for all 00114 codes that exceed one visit every other week.
- Ensure that times are included for all resident conferences and special call visits.

Correcting rejections

- Fix the error and resubmit (i.e., Add in the time, correct resident name etc.)
- Example Rejection Code: FV - 'this service is included in a previously paid item' – this code will appear if you submit a 14077 and 00114 on the same day without including time for both and references a small part of the description of 14077 from the FPSC: *viii) Payable in addition to any visit fee on the same day if medically required and does not take place during a time interval that overlaps with the resident conference (i.e. Visit time is separate from conference time).*
- Sometimes you will need to call MSP: Vancouver: 604-456-6950 and other areas of B.C. (toll-free): 1-866-456-6950. The MSP billing representatives will advise on what you need to do to correct the billing.

PWE – Paid with Exception

- For the most part a PWE is a rejection and can be handled as same
- Common example is the code RV – notifying you that you cannot bill this code unless you have seen the resident for chronic condition twice in the last calendar year (i.e., 14050).
- Sometimes PWE codes just want to inform you of something (such as checking resident name to ensure spelled correctly etc.) and do not signify that the claim is not getting paid.
