

## **Long-term Care MRP – Call for Expressions of Interest**

Do you enjoy working in team-based environments? The Victoria and South Island Long-term Care Initiative (LTCI) is seeking family physicians interested in working in collaborative practice models to provide medical care to a panel of residents at Glengarry Hospital, and Island Health owned and operated site.

The LTCI supports its physician members by providing services and resources to enhance and streamline long-term care practice:

- Annual stipend – If you are on the Fee for Service payment model you can receive quarterly payments to meet best practice expectations.
- Competitive pay rate on the LFP payment model.
- After-hours, weekends, and stats medical coverage by a dedicated LTC physician call group.
- Assistance, tools, and resources - to focus your long-term care practice with LTCI program team support.
- LTCI Clinical Learning Series - provides opportunities for ongoing education.
- Parking passes - for Island Health sites, and assured parking at other long-term care sites.
- Fax-to-email services - for timely communications.
- Billing optimization support - through the LTCI billing guide and access to our billing consultant.

### **Key Points:**

- Current opening at Glengarry Hospital, a long-term care home in the Oak Bay/Fairfield area.
- Island Health owned and operated site, with additional support provided by Island Health.
- PowerChart enabled.
- Flexible start date.
- An established resident panel of 25 residents with the opportunity for growth both on-site and at a variety of sites across the region.
- A flexible work schedule that can accommodate family and other work commitments.
- Approximately one-half day a week time commitment.
- A welcoming, community minded style of practice with many mentoring and funded shadowing opportunities.

### **What we are looking for:**

- Dedicated, hard-working and collaborative family physicians.
- Ability to work as a team with Nurses, Nurse Practitioners, and Allied Health Professionals.
- Open to physicians currently practicing as FPs, ERPs or Hospitalists.
